Systematiska översikter bedömdes med hjälp av en svensk översättning av Cochranes granskningsmall ROBIS [91]. Om översikten bedömdes ha hög risk för bias i en domän granskades den inte vidare enligt de efterföljande domänerna utan bedömdes ha hög risk för bias och exkluderades.

2. ME/CFS

Figur 2.1 Sammanställning av risk för bias för primärstudierna [92-97].
